

GAP PROFESSIONAL PRODUCTS

Safety Data Sheet Air Freshener Concentrate (Spring Air)

SECTION 1: Identification

Product Identifier

Product Name: Air Freshener Concentrate - Spring Air

Product Number: AF40

Recommended use of the chemical and restrictions on use

Odour Removal

Supplier's Details

Name GAP Professional Products
Address 122 Route 105
Keswick Ridge, NB E6L 1B1
Canada

Telephone (506) 363-9708
Fax (506) 363-4241
Email info@gapauto.com

Emergency Phone Number(s)

For Medical or Transport Emergencies/
Pour les urgencies médicales ou de transport
CANUTEC (24 Hours/Heures)
(613) 996-6666

SECTION 2: Hazards Identification

Classification of mixture:

GHS Classification in accordance with 29 CFR 1910 (OSHA
HCS) Acute toxicity, Oral (Category 4), H 302
Acute toxicity, Dermal (Category 3), H311
Skin irritation (Category 2), H315
Serious eye damage (Category 2A), H319
Specific target organ toxicity – single exposure (Category 3), Respiratory system, H335
Flammable Mixture Category 3

Label elements, including precautionary statements

Pictograms

Safety Data Sheet
Air Freshener Concentrate (Spring Air)

SECTION 3: Composition/Information on Ingredients

This is a concentrated compound, containing a mixture of natural and synthetic aroma chemicals, conforming to IFRA regulations

SECTION 4: First Aid Measures

Description of necessary first-aid measures

Inhalation: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. For breathing difficulties, oxygen may be necessary. Call a physician if symptoms develop or persist.

Skin Contact: Take off immediately all contaminated clothing. Get medical attention if irritation develops or persists. Wash skin thoroughly with soap and water for several minutes.

Eye Contact: Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists. Promptly wash eyes with plenty of water while lifting the eye lids.

Ingestion: Call a physician or poison control center immediately. If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs.

Most important symptoms/effects, acute and delayed: Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause an allergic skin reaction. Dermatitis. Rash. Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Narcosis. Decrease in motor functions. Behavioral changes. May cause redness and pain. Prolonged exposure may cause chronic effects.

Indication of immediate medical attention and special treatment needed: Not available

General Information: Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

SECTION 5: Fire-Fighting Measures

Suitable extinguishing media: Water spray, fog, CO2, dry chemical, or alcohol resistant foam.

Unsuitable extinguishing media: Do not use a solid water stream as it may scatter and spread fire.

Specific hazards arising from the chemical: Fire may produce irritating, corrosive and/or toxic gases.

Special proective equipment and precautions for firefighters: Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters protective clothing will only provide limited protection. Wear self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode when fighting fires.

Safety Data Sheet

Air Freshener Concentrate (Spring Air)

<u>Fire-fighting equipment/instructions:</u>	In case of fire and/or explosion do not breathe fumes. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Water runoff can cause environmental damage. Ventilate closed spaces before entering them. Keep run-off water out of sewers and water sources. Dike for water control.
<u>Specific methods:</u>	Use water spray to cool unopened containers.
<u>General fire hazards:</u>	Static charges generated by emptying package in or near flammable vapor may cause flash fire.

SECTION 6: Accidental Release Measures

<u>Personal precautions, protective equipment and emergency procedures:</u>	Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Eliminate all sources of ignition. Avoid contact with skin or inhalation of spillage, dust or vapor.
<u>Methods and materials for containment and cleaning up:</u>	Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Clean surface thoroughly to remove residual contamination. Collect and dispose of spillage as indicated in section 13 of the SDS. Never return spills in original containers for re-use.
<u>Environmental precautions:</u>	Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Retain and dispose of contaminated wash water.

SECTION 7: Handling and Storage

<u>Precautions for safe handling:</u>	Do not handle or store near an open flame, heat or other sources of ignition. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Wash thoroughly after handling. Avoid contact with eyes, skin, and clothing.
<u>Conditions for safe storage, including any incompatibilities:</u>	Do not store in direct sunlight. Keep container closed. Handle containers with care. Open slowly in order to control possible pressure release. Store in a cool, well ventilated area. Keep under a nitrogen blanket.

SECTION 8: Exposure Controls/Personal Protection

<u>Biological limit values:</u>	No biological exposure limits noted for the ingredient(s).
<u>Appropriate engineering controls:</u>	Use explosion-proof ventilation equipment to stay below exposure limits. Individual protection measures, such as personal protective equipment.
<u>Eye/face protection:</u>	Avoid contact with eyes.
<u>Hand protection:</u>	Chemical resistant gloves.
<u>Other:</u>	Use of an impervious apron is recommended.

Safety Data Sheet
Air Freshener Concentrate (Spring Air)

<u>Respiratory protection:</u>	Chemical respirator with organic vapor cartridge and full face piece.
<u>Thermal hazards:</u>	Wear appropriate thermal protective clothing, when necessary.
<u>General hygiene considerations:</u>	When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

SECTION 9: Physical and Chemical Properties

Information on basic physical and chemical properties

Appearance

Form:	Liquid
Colour:	Clear to pale yellow/brown
Odor:	Clean scent
Boiling point	No data available
Flash point	145°F
Ignition temperature:	No data available
Lower explosion limit:	No data available
Upper explosion limit:	No data available
Specific Gravity:	0.9589 @ 25C
Water solubility:	Water soluble
Relative vapour density:	No data available
Evaporation rate:	No data available

SECTION 10: Stability and Reactivity

<u>Reactivity:</u>	The product is stable and non-reactive under normal conditions of use, storage and transport.
<u>Chemical stability:</u>	Material is stable under normal conditions.
<u>Posibility of hazardous reactions:</u>	No dangerous reaction known under conditions of normal use.
<u>Conditions to avoid:</u>	Porous material such as rags, paper, insulation, or organic clay may spontaneously combust when wetted with this material.
<u>Incompatible materials:</u>	Strong oxidizing agents.
<u>Hazardous decomposition products:</u>	No hazardous decomposition products if stored and handled as indicated.

Safety Data Sheet
Air Freshener Concentrate (Spring Air)

SECTION 11: Toxicological Information

Information on likely routes of exposure

<u>Ingestion:</u>	Harmful if swallowed.
<u>Inhalation:</u>	Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Harmful if inhaled. May cause damage to organs by inhalation.
<u>Skin contact:</u>	Harmful in contact with skin. Causes skin irritation. May cause an allergic skin reaction.
<u>Eye contact:</u>	Causes serious eye irritation.
<u>Symptoms related to the physical, chemical and toxicological characteristics:</u>	Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Skin irritation. May cause redness and pain. Dermatitis. Rash. Narcosis. Behavioral changes. Decrease in motor functions. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting. Information on toxicological effects.
<u>Acute toxicity:</u>	Harmful if inhaled. Harmful if swallowed. Harmful in contact with skin. Narcotic effects. May cause an allergic skin reaction. May cause respiratory irritation. Expected to be a low hazard for usual industrial or commercial handling by trained personnel.
<u>Skin corrosion/irritation:</u>	Causes skin irritation. Humans: No skin irritation @ 4%.
<u>Serious eye damage/eye irritation:</u>	Causes serious eye irritation.
<u>Respiratory sensitization:</u>	Not available.
<u>Skin sensitization:</u>	May cause an allergic skin reaction. Humans: No sensitizing effect @ 4%.
<u>Germ cell mutagenicity:</u>	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
<u>Carcinogenicity:</u>	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA.
<u>Reproductive toxicity:</u>	This product is not expected to cause reproductive or developmental effects.
<u>Specific target organ toxicity - single exposure:</u>	Respiratory tract irritation. Narcotic effects.
<u>Specific target organ toxicity - repeated exposure:</u>	Causes damage to organs (nervous system) through prolonged or repeated exposure.
<u>Aspiration hazard:</u>	Not available.
<u>Chronic effects:</u>	Causes damage to organs through prolonged or repeated exposure.

Safety Data Sheet
Air Freshener Concentrate (Spring Air)

SECTION 12: Ecological Information

<u>Ecotoxicity:</u>	No data available.
<u>Persistence and degradability:</u>	No data available.
<u>Bioaccumulative:</u>	No data available.
<u>Mobility in soil:</u>	No data available.
<u>Other adverse effects:</u>	No data available.

SECTION 13: Disposal Considerations

<u>Disposal instructions:</u>	Do not discharge into drains, water courses or onto the ground. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/ container in accordance with local/regional/national/international regulations.
<u>Local disposal regulations:</u>	Dispose in accordance with all applicable regulations.
<u>Waste from residues/unused products:</u>	Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
<u>Contaminated packaging:</u>	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

SECTION 14: Transport Information

DOT (US)

UN-Number:	1169
Class:	9
Packing Group:	III
Proper Shipping Name:	Extracts Aromatic Liquid (Mixture)
Marine Pollutant:	No
Poison Inhalation Hazard:	No

IMDG

UN-Number:	1169
Class:	9
Packing Group:	III
Proper Shipping Name:	Extracts Aromatic Liquid (Mixture)
Marine Pollutant:	No

IATA

UN-Number	1169
Class:	9
Packing Group:	III
Proper Shipping Name:	Extracts Aromatic Liquid (Mixture)

Safety Data Sheet
Air Freshener Concentrate (Spring Air)

SECTION 15: Regulatory Information

California Prop. 65 Components

This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

Notification Status

Australian Inventory of Chemical Substances (AICS):

YES. On the inventory, or in compliance with the inventory

Canadian Environmental Protection Act (CEPA)—Domestic Substance List (DSL):

YES. On the inventory, or in compliance with the inventory

Korean Chemical Inventory (ECL):

YES. On the inventory, or in compliance with the inventory

China Inventory (SEPA):

YES. On the inventory, or in compliance with the inventory

European Inventory of Existing Commercial Chemical Substances (EINECS):

YES. On the inventory, or in compliance with the inventory

Japanese Chemical Inventory—Ministry of Economy Trade & Industry Inventory (METI):

YES. On the inventory, or in compliance with the inventory

New Zealand Inventory of Chemicals (NZIoC):

YES. On the inventory, or in compliance with the inventory

Philippines Chemical Inventory (PICCS):

YES. On the inventory, or in compliance with the inventory

United States Toxic Substances Control Act (TSCA):

YES. On the inventory, or in compliance with the inventory
